

NSW High Schools

These tables are based on the results of NAPLAN tests for NSW primary and secondary schools released yesterday by the Federal Government. The first two columns name the school and its location. The third column is the rank the school achieved in the state, based on an average of its results for reading, writing, spelling, grammar and punctuation and numeracy in years 3 and 5 for primary schools, and years 7 and 9 for high schools.

The fourth column is the ranking of the school by the Government's index of community socio-economic educational advantage (ICSEA).

The remaining columns show where the school ranks in the state as measured by its results in each individual area; reading, writing, spelling, grammar and punctuation and numeracy as measured by its NAPLAN results in year 5, in the case of primary schools, and year 9, in the case of secondary schools.

Not all schools conducted NAPLAN tests or have results. For example infant schools do not hold the tests. Not all schools gained an overall ranking because of incomplete test data. Some schools' ICSEA data is not available.
